

It's the Police...

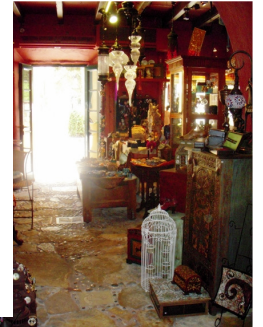

armed and ready to shoot...
545 pics in 6 days.
We think they liked it.

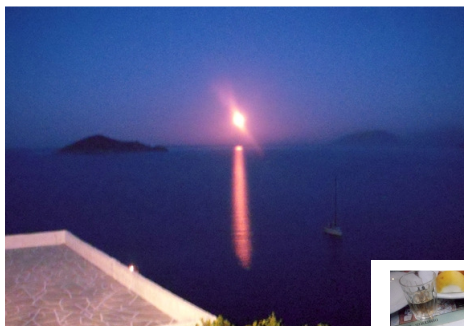

Hanne & Per , colleagues from Gladsaxe, joined us for 6 days of walking, swimming, exploring, eating and a "Mythos" or two....Come again anytime....

We enjoyed many rambling walks through the backstreets and old Turkish quarters. Leros was occupied by Venetians, Turks, and Italians. 3000 Lerians founded a colony in Egypt and all these influences have left their mark though much was destroyed during the wars. Many beautiful old mansions lie crumbling and deserted.

Images from the island's fort, beaches and backstreets...there are many small surprises around every corner, wonderfully quirky details and always the light which changes by the hour..

Moonlight over "Dimitri's"... Prawns in bacon and filo pastry with tomato marmalade...yum!
